Statement of Fact

This financial order transfers funds and increases allotment in the All Other line category in the Maine Health Data Organization account. Funding is transferred from the Department of Health and Human Services (DHHS) federal account for activities related to COVID-19. A memorandum of understanding with DHHS and Maine Health Data Organization will provide funding to establish local/regional infection prevention and control training, conduct Learning Needs Assessment of the State's healthcare workforce, provide awareness and facility uptake of infection prevention, training, and education content provided and approved by the Center for Disease Control and Prevention. Failure to allot these funds will result in the agency unable to compile and provide essential services related to COVID-19.
